## WHO WE ARE

YDRC provides Detroit-area youth development organizations with a holistic approach to quality, networking, advocacy, and adult learning to expand youth provider skills and capabilities.

Our programs strengthen the individual and collective impact on youth by giving the youth providers the tools they need to increase program quality and produce measurable results.

## WHAT WE DO

YDRC supports 100s of Detroit area out-of-school time program providers in building their capacity to serve young people.

By building capacity in tools, skills, awareness, and connections, the YDRC supports these essential programs in providing thousands of Detroit youth with the communities, opportunities, and spaces they need to thrive in school, careers, and life.

## HOW WE DO IT

Many YDRC programs are **FREE** and include:

- Professional Development
- Learning Communities
- Workshops
- Networking Events

Each program is designed to help grow and increase the positive outcomes of the Detroit area programs and the youth they serve.

**“Thank you for all the support that [Acting with Data] provides our organization! It has been a foundational learning experience and tool for our organization to continue to learn and grow as we seek to provide high-quality youth development best practices within our programming! We are looking forward to next year!”**
